(**Pacific Junction, Iowa**))

RECEIVED

NOV 30 1998

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

To: Chief, Allocations Branch

PETITION FOR RULE MAKING

Warga Broadcasting L.L.C. ("Warga"), by its attorney and pursuant to § 1.401, *et seq.*, of the Commission's Rules, hereby petitions the Commission to amend the FM Table of Allotments set forth in § 73.202(b) of the Rules to allot **Channel 299A to Pacific Junction, Iowa**, as that community's first local aural service.

In the event that this Petition is granted and the requested allotment is made, Warga hereby states its firm intention to file an application for the Pacific Junction FM station.

In support whereof, the following is shown.

Pacific Junction, Iowa

Pacific Junction (1994 estimated population, 619) is one of eight incorporated communities in Mills County, Iowa, a non-metropolitan county in southwest Iowa. Pacific Junction is officially designated a city by the State of Iowa. According to the 1990 Census, the population of Pacific Junction was 548. In fact, the current population exceeds the 1994 estimate, but no 1998 population figures are available.

No. of Copies rec'd. 0 + 4
List ABCDE
MMB

Despite its comparatively small population Pacific Junction possesses all the attributes which the Commission traditionally considers as constituting a community. As documented in the Iowa State University, University Extension, September 1997 "Data for Decision Makers - Mills County," annexed hereto as Ex. 1, p. 1,¹ Pacific Junction was the only one of Mills County's eight communities to increase in population between 1980 and 1990. Its current rate of population increase remains the highest of any of the eight communities in the County. Moreover, with the new commencement of operations just outside Pacific Junction of Bunge Corp., one of the Midwest's largest soybean processors, development of new housing and business within the City, as well as in neighboring communities, has already commenced. Bunge Corp. employs over 100 persons and is expected to greatly increase the growth and prosperity of Pacific Junction.

Besides being an incorporated and census-designated city, Pacific Junction enjoys the other qualities which typify a community. It is governed by an elected mayor and five elected council members. It has officially defined boundaries (see Ex. 1, p. 2) a City Hall and adjacent Community Center, and a full-time City Clerk, who has the designated responsibility for overseeing community maintenance needs.

Pacific Junction has its own Planning and Zoning Board, with five local residents appointed by Mayor Fred Nuss, and its own City Betterment Committee, with 10-12 local members. Pacific Junction has an alphabetical telephone directory and its own telephone number prefix (Pacific Junction residents exclusively have telephone numbers beginning with 622 in area code 712) (Ex. 1, pp. 3-5) a Pacific Junction Post Office (the Pacific Junction Zip

¹ The materials comprising Ex. 1 were provided by Duane Fleming, City Clerk of Pacific Junction.

Code is 51561) and its own Pacific Junction voluntary fire and rescue squad, incorporated as Emergency Service, Inc. and composed of 17 firemen and eight rescue personnel who serve and protect the lives and property of nearly 2000 persons within a radius of approximately 175 square miles.

While Pacific Junction shares law enforcement and schooling facilities with other neighboring communities, it has two local churches within city limits (the Full Faith Church and the Pacific Junction Methodist; see Ex. 1, p. 6), and a number of local businesses and industries (including: nationally known Kiewit Construction Co., a switching facility for the Burlington and Northern Railroad (and the source of the City's name, Pacific Junction), the CoOp Farm Service Company, Pacific Junction Antique Mall and Junction Restaurant, J & J Antiques, United Suppliers Fertilizer Distribution Plant, the Bluff View Cafe, Motel and Amoco Station, the Pacific Junction Branch of Glenwood State Bank, and another local pub, the Junction Cafe), which employ numerous persons residing both in Pacific Junction and elsewhere. The Iowa State Department of Transportation maintains its Highway Division Maintenance Garage in Pacific Junction, employing 15 persons there.

Additional compelling evidence of Pacific Junction's status as a community is seen in the remarkable variety of local events conducted throughout the year and which serve to bring residents of Pacific Junction closer together, perpetuating and strengthening the identity of this small, but definitely burgeoning, City. "Bingo Night" takes place every Thursday in the Pacific Junction Community Center, with the proceeds going to support the city's fire and rescue squad. Every other week, "P.J. Jam Session" is held at the Community Center; the

average attendance for this event exceeds 100. Pacific Junction's annual "Whistlestop Days," another event arising from the community's longtime status as a railroad switching terminus, occurs each autumn, includes a parade and highly popular community celebration, successfully maintaining local civic pride. According to the City Clerk, weekly square dancing is set to begin at the Pacific Junction Community Center in January 1999.

In sum -- in addition to the fact of its incorporation as an Iowa city and its official U.S. Census designation -- the aforementioned objective indicia of Pacific Junction's community status, and the supporting evidence, affirm that the people of Pacific Junction, through their locally elected city government, their churches, businesses and industries, and their regular and well-attended local civic events, "subjectively view themselves as functioning as a community and belonging to it." *Mighty-Mac Broadcasting Co.*, 58 RR 2d 599, 603 ¶ 7(1985). It can thus be easily seen that Pacific Junction "has sufficient attributes of 'community,' such as political, commercial, social, and religious organizations and services serving the community," and that "there is a sense of unity and involvement in community concerns as shown by evidence that 'the residents function as and conceive of themselves as a community around which their interests coalesce.'" *Id.*, citing *FM Channel Assignments (Vimville, Mississippi)*, Report and Order, 55 RR 2d 256, 258 (MM Bur. 1983); and *FM Channel Assignments (North Naples, Florida)*, 41 RR 2d 1549 (B Bur. 1977).

It should therefore be concluded that Pacific Junction, Iowa, is a community as contemplated by § 307(b) of the Communications Act of 1934, as amended, and, therefore, is fully entitled to have its own local radio station.

Technical Considerations

Annexed hereto as Ex. 2 is the Engineering Exhibit of Mullaney Engineering, Inc. The Engineering Exhibit affirms, based upon a channel allocation study, that Channel 299A can be allotted to Pacific Junction in conformance with all Commission rules and policies as its first local broadcast service.

Again, Warga affirms that in the event this Petition is approved, it intends to file an application to serve Pacific Junction on Channel 299A.

Conclusion

WHEREFORE, for the foregoing reasons, the instant Petition for Rule Making should be granted and § 73.202(b) of the Commission's Rules amended to allot Channel 299A to Pacific Junction, Iowa, as its first local aural service.

Respectfully submitted,

WARGA BROADCASTING L.L.C.

from the Requested Reference Coordinates.
4. Figure 2, Allowable Area Map for Ch. 299A.

DECLARATION

I, John J. Mullaney, declare and state that I am a graduate electrical engineer with a B.E.E. and my qualifications are known to the Federal Communications Commission, and that I am an engineer in the firm of Mullaney Engineering, Inc., and that firm has been retained by Warga Broadcasting L.L.C., to prepare an engineering statement in support of a Petition to Amend the FM Table of Assignments.

All facts contained herein are true of my own knowledge except where stated to be on information or belief, and as to those facts, I believe them to be true. I declare under penalty of perjury that the foregoing is true and correct.

John J. Mullaney

Executed on the 20th day of Nebraska 1998.

ENGINEERING EXHIBIT EE-RM:

**WARGA BROADCASTING L.L.C.
PACIFIC JUNCTION, IOWA
ALLOTMENT OF FM CHANNEL 299A**

NARRATIVE STATEMENT:

I. GENERAL:

This engineering statement has been prepared on behalf of Warga Broadcasting L.L.C. The purpose of this statement is to support a request that the FM Table of Assignments be amended to allot Ch. 299A at Pacific Junction, Iowa, which is located in Mills County.

It should be noted that Channel 299A would be the First Local Service to be licensed to Pacific Junction, Iowa.

It should also be noted that the area in question is not within 290 kilometers (180 miles) of a U.S. Border and, therefore, foreign concurrence is not required.

II. ENGINEERING DISCUSSION:

A. Proposed Site:

The following geographic coordinates are for a special reference point which is 4.5 kilometers (2.8 miles) north of Pacific Junction, Iowa:

Latitude: 41° 03' 25"
Longitude: 95° 46' 50"

The proposed site will provide an unobstructed view of the City of License, Pacific Junction, Iowa and is located close enough to serve the entire community with the required 3.16 mV/M contour.

B. Channel Allocation Study:

Figure 1 is a Channel Allocation Study from the Special Reference Point proposed herein which indicates the required separation in kilometers to all known Licenses, Construction Permits, Open Allocations, pending Applications, and pending Rule Makings. From this study it can be determined that the proposed special reference point exceeds all of the minimum separations.

It should be noted that the minor short spacing to the licensed site of KMAJ at Topeka, KS, is within the 0.5 KM tolerance provided for in the rules. KMAJ also holds a CP which after its implementation will make it possible to locate the proposed tower for Ch. 299A in downtown Pacific Junction.

As a counter proposal in MM Docket 96-95, it was proposed to allot Channel 299A in lieu of 295C2 to Plattsmouth, Nebraska. However, in the Report and Order released October 13, 1998, the counter proposal involving Ch. 299A was denied.

Figure 2 is a map which illustrates these restrictions and the resulting area in which the tower site must be located.

C. Public Interest Showing:

Operation of a maximum Class A FM facility from the special reference point proposed herein will result in the 60 dBu contour encompassing 367,700 persons (1990 census).

Based upon the above, Warga Broadcasting believes that the requested channel substitution is in the Public Interest and should therefore be granted by the Commission.

III. SUMMARY:

Warga Broadcasting L.L.C. requests that the FM Table of Assignments be amended to allot FM Channel 299A at Pacific Junction, Iowa.

City	Present	Proposed
Pacific Junction, Iowa	- - -	299A

Warga Broadcasting believes that the proposed allotment of a Class A facility as the only Local Service assigned to Pacific Junction, Iowa, will Serve the Public Interest. If allotted Warga Broadcasting will promptly file an application.

November 20, 1998.

John J. Mullaney
